EDUCATION

University of Toronto | **Digital Enterprise Management Specialist** **2023.09 – 2027.06**

C-GPA: 3.6 / 4.0 | S-GPA: 3.82

- Dean's List (2026) Entrance Scholarship

Relevant Coursework: Product Design | UX Design | Digital Marketing | Project Management | Data Analytics

EXPERIENCE

AI Product & Solution Intern — Coaching & Sales Institute – Coach P.E.R.I. — 2026.09 – Present

Supported the customization and testing of Coach P.E.R.I., an AI-powered sales training platform, focusing on enterprise use cases, user experience, and front-end customization.

- **Product Customization:** Developed a Wilson-specific customization concept for Coach P.E.R.I., adapting company information, products, sales scenarios, and training content to support more relevant AI role-play experiences.
- **UX & Front-end Design:** Redesigned the Wilson customization interface and practice flow, creating front-end prototypes that incorporated Wilson branding while maintaining the existing product structure.
- **AI Product Testing:** Tested AI role-play and feedback experiences, identified issues in evaluation logic, response speed, and user guidance, and proposed improvements based on different user scenarios.
- **Product Analysis:** Reviewed the existing product workflow and technical structure to identify customization requirements and implementation constraints, helping define more practical customization approaches.

AI Content & Product Operations Intern — Curiosea – Catchi App — 2026.08 – Present

Supported AI-powered English learning content development and overseas social media operations, connecting content production, product promotion, and user acquisition.

- **Account Growth:** Launched and grew two TikTok accounts from **0–1,** reaching approximately **300** and **600** followers within two weeks, with top-performing content generating **4K+** views.
- **AI Content Production:** Developed AI-generated English-learning short-form videos and mini-series, combining real-life English scenarios with character-driven storytelling to create engaging educational content.
- **Content Experimentation:** Conducted content experiments across two accounts using different AI characters and visual styles, testing comparable scripts and formats to identify stronger creative directions.
- **Product & Community Growth:** Connected social content with the English-learning product while supporting community outreach and potential creator/community collaborations to expand user acquisition.

AIGC E-commerce Content Operations Intern — ByteDance | TikTok Shop Full Service — 2026.05 – 2026.08

Led AIGC content commerce operations for TikTok Shop Full Service across the U.S. (English & Spanish) and Germany (German), driving localized content strategies that improved product conversion and GMV.

- **Account Management:** Managed **10+** localized TikTok Shop creator accounts across multiple international markets, developing market-specific content and creator strategies.
- **Market Insight:** Identified consumer insights within the German Muslim female market and developed a localized creator persona, improving GMV conversion by approximately **20%.**
- **AI Workflow:** Built multilingual AI content workflows using ChatGPT, Gemini, Dreamina, and ByteDance AI tools, streamlining scriptwriting and video production across multiple markets.
- **Optimization:** Optimized AI-generated creatives through analysis of views, CTR, GMV, and customer feedback, contributing to a solar light campaign with **500K+ views, 4.25% CTR, and $2K GMV**.
- **Cross-functional Collaboration:** Partnered with buyers, **product managers**, and engineers to test **internal AI tools**, identify content generation issues, and provide feedback for product improvements.
- **Impact:** Incubated AI-powered content brands from **0 to 100K+** followers, produced multiple **1M+** viral videos, and contributed approximately **$20K** in monthly GMV.

AI Product Operations & Growth Intern — RightBrain Tech – Humva AI — 2025.08 – 2025.11

Supported global user growth, AI product marketing, and product validation for Humva.ai, contributing to product adoption and feature iteration through content strategy, user research, and data analysis.

- **Global User Growth:** Managed Instagram and TikTok content strategy, growing the brand to **3.8K** and **4.1K** followers respectively, with top-performing videos reaching **242K+** and **45K+** views.
- **Growth Experimentation:** Conducted A/B testing on AI-generated content and discovered that news-driven AI avatar videos consistently outperformed traditional tutorial formats, informing future content strategy.
- **Product Marketing:** Planned and produced promotional content for Humva.ai 1.0 AI Avatar and 2.0 Promo Video, using storytelling and AI-generated demos to showcase product capabilities and increase product awareness.
- **Product Validation:** Recruited SaaS users through Reddit communities, gathered qualitative user feedback, identified recurring pain points, and translated feature requests into actionable product recommendations.

Overseas Content Operations Intern — Turing Sense – Tusee App — 2024.04 – 2024.09

Supported overseas content strategy and social media growth for TUSEE, developing localized short-form content to drive account launch and user engagement among global sneaker and luxury fashion communities.

- **Content Strategy:** Developed a structured content strategy based on overseas consumer trends and authentication needs, launching four core content pillars including official tutorials, real vs. fake comparisons, sneaker & luxury recommendations, and authentication tips.
- **Account Growth:** Launched the official overseas TikTok account from scratch, planning and producing **1–2** tutorial videos per week with story-driven hooks that generated up to **2.4M+** views on a single video.
- **Performance Optimization:** Analyzed key performance metrics including views, CTR, and engagement rate to continuously optimize opening hooks, storytelling structure, and content topics, improving content reach and audience retention.
- **Community Growth:** Identified and collaborated with sneaker and streetwear KOLs while engaging Facebook communities through authentication case studies and product-related discussions, strengthening brand awareness and community engagement.

PROJECTS

ClinicalLog AI-powered Multilingual Healthcare Assistant
2025.06 – 2025.08 — Product Design

- **User Research:** Conducted user interviews and needs analysis to identify communication barriers faced by multilingual patients during medical consultations.
- **Solution Design:** Designed an AI-assisted consultation and bilingual translation workflow, creating information architecture, user flows, and high-fidelity prototypes in Figma.
- **Usability Testing:** Iterated on interaction design through user testing and feedback, improving usability and overall user experience.

Personal Portfolio Website
2026.03 – present — Web Development

- **Portfolio Design:** Designed and developed a responsive portfolio website showcasing AI product, growth, and product design projects.
- **Front-end Development:** Built responsive web pages using HTML, CSS, and JavaScript for desktop and mobile devices.
- **AI-assisted Development:** Leveraged AI coding tools to streamline development workflows and improve implementation efficiency.

Love ROI Interactive Product Marketing Campaign
2026.01 – 2026.02 — Campaign Strategy

- **Creative Strategy:** Developed the Love ROI campaign concept, using satire to explore the commercialization of modern dating apps.
- **Interactive Experience:** Designed the Love ROI Calculator, enabling users to calculate the "ROI" of dating interactions and encouraging engagement through interactive storytelling.
- **Development:** Built the interactive website independently using HTML, CSS, and JavaScript, leveraging AI coding tools to accelerate development.

The Girl Who Rented Time
2026.09 – 2026.10 — AI Filmmaking | 7m 52s Short Film

- **Creative Direction:** Inspired by a short film I created with friends during childhood, I reimagined the story of a young girl who trades away years of her life to grow up faster. Dedicated to "every child who couldn't wait to grow up," the film explores childhood innocence, the passage of time, and the bittersweet experience of growing up.
- **Solution Design:** Reimagined the childhood experience as a fantasy film blending Eastern magical realism with handcrafted storybook aesthetics. Through the girl's journey from childhood to old age, the film explores the value of time, the loss of innocence, and the importance of cherishing each stage of life.
- **Visual Storytelling:** Created a handcrafted clay-like miniature world inspired by stop-motion animation and Eastern magical realism, using soft textures, storybook-inspired environments, and symbolic visual elements to evoke childhood nostalgia. Designed cinematic compositions and transitions to illustrate the passage of time and the emotional journey from childhood to adulthood.

Dessert Zoo: Feed, Grow, BOOM
2026.01 – 2026.02 — Interactive Game Design · p5.js

- **Concept & Character Design:** Created a playful dessert-themed ecosystem featuring original hybrid animal-dessert creatures, each with distinct visual identities and behaviors.
- **Interaction Design:** Designed a reactive gameplay loop where players feed creatures, trigger growth and emotional changes, and discover new creatures through playful explosions.
- **Creative Coding:** Developed the interactive experience using JavaScript and p5.js, implementing object-oriented programming, state-based behaviors, particle effects, and randomized creature generation.
